

Word Battleship

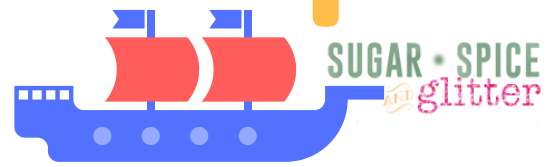

Print off two sheets - one for each player .

Think of 5 words - one with 5 letters, one with 4 letters, two with 3 letters and one with two letters. (See second page for help thinking of words.) Write the words on your grid, but do not overlap.

When your opponent says a grid coordinate, tell them if they hit or missed, and then mark an "x" on that square.

Take turns guessing coordinates and try to "sink" all of your opponent's ships. (Indicate where you have guessed on the smaller grid.)

First one to sink all of their opponent's ships wins.
