

# SCIENTIFIC METHOD FOR KIDS!

## 1 ASK A QUESTION

## 2 DO BACKGROUND RESEARCH

Draw from information found online, in books, and from your own previous experience.

## 3 CONSTRUCT A HYPOTHESIS

Based on your background research, "guess" the answer to your question.

## 4 CONDUCT AN EXPERIMENT

Test your hypothesis!

## 5 ANALYZE & DRAW CONCLUSIONS

Analyze your data and use it to form information to answer your question.

## 6 COMMUNICATE YOUR RESULTS
